

SUNSUI PROCESS SYSTEMS is one of the leading manufacturer of a wide range of products which include rtd temperature transmitter and temperature transmitter.

We are one of the renowned and well-known industries which are extensively engaged in providing several kinds of supreme quality **Temperature Transmitter** in the market. These products are manufactured using the latest technologies and finest grade raw materials. Apart from this, provided product is used in pharmaceutical industry, Food industry, Sugar industry, Textile industry, Dyes Intermediates, Drug industry and Power Sector.

Temperature Transmitter

Features :

- Various designs
- Longer service life
- Dimensional accuracy

Specifications :

- Range : As per customer requirement
- Input : Thermocouple
(J, K, R, S, T, PT100 or PT1000)
- Output : 4-20ma or 0 to 1 V or as per customer requirement.
- Supply : 24VDC

Temperature Transmitter

To cater the increasing requirements of our valued clients, we are offering a large array of **Temperature Transmitter** to our valued customers. As per the precise requirement of our clients, we are offering these products in various stipulations. These are widely used for compensating measurement error caused by temperature. In addition, we offer this product in the market at the very affordable price.

☐ Features :

Performance-oriented design

☐ Accurate results

☐ Simple usage

☐ Specifications :

☐ Range : As per customer requirement

☐ Input : Thermocouple

(J, K, R, S, T, PT100 or Pt1000)

☐ Selection of range : Range is fixed & factory calibrated

☐ Output : 4-20ma or 0 to 1 V or as per customer requirement.

☐ Mounting type : DIN rail
